

Frank Gilmer

AKC Judge
Frank Gilmer

I am Frank Gilmer, from Northeast, Maryland — which is in the northeast corner of Maryland, near Pennsylvania and Delaware.

I have been running Agility for over 20 years and have had dogs my whole life. I am currently running Hairless Chinese Cresteds, which are so much fun to run and to live with.

My “day job” is as a software engineer at a major internet company.

I have been an AKC Agility Judge for 9 years. I see it as my way to give back to the sport I get so much from. I enjoy traveling around the country and watching different teams showcase their skills and training.

I believe that Agility is a game that we have the privilege to play with our canine partners. It is not going to solve World Peace or Hunger. We jump over plastic. We all spend too much time and money to not enjoy ourselves while we are doing it.”
